GRASSE: WORLD PERFUME CAPITAL

At first sight the town of Grasse on the Côte d'Azur seems sleepy and one does not seem to see trace of the formidable adventure at the heart of which it was.

In the center of the city the activity buzzes yet as much around the perfume. Indeed, more than 10% of the population (of 52 000 inhabitants) is employed in the local perfume industry. Just 20 kilometers from Cannes, this small town has earned a reputation as the world's perfume capital thanks to its many traditional fragrance houses. This city is ideal for growing flowers and plants because its climate is mild and sunny. Jasmine and Orange Blossom among others are particularly cultivated at this location.

What is unknown however is that the fragrant history of the city already began with the Renaissance.
